

Badge Template [MAKE A COPY]

[Badge Name Example (Noun): Personalized Email Marketing]

Badge Description: *[Directions: Start with a verb (try to avoid “understand” and “learn”) and summarize the goal of the badge, addressing the top skills covered in the badge. There is a 90-character limit. Example: Discover best practices for designing and sending emails.]*

Suggested Unit Titles

[Directions: Start unit names with an imperative verb that instructs your learner to do something. Examples: Craft Effective Marketing Emails; Get Started with Application Security]

AI Usage

Did you use AI to help you write this badge content? (This is just an FYI for your editor.)

☐ Yes

☐ No

If yes, what AI tool did you use?

Please review our [Trailhead AI Review Checklist](#) before submitting your content to editorial.

Suggested Category

- **Role:** Select Role ▾
- **Level:** Select Level ▾
- **Trailhead Products/Features:** Select a Product/Feature ▾
Select another Product/Feature (optional) ▾
- **Industry:** Select Industry ▾ (if applicable)
- **[For internal use only: Primary Product/Feature:** Select a Primary Product/Feature ▾]
- **Skills** (select at least one and no more than five; *public-facing content only*):

Skill	x = selected	Skill	x = selected
Accessibility & Inclusion		Digital Marketing	
Account Management		eCommerce	
Account Management and Strategy		Employee Training	
Agile Software Development		Framework Development	
AI Agents		General Finance

Prerequisite Badges

Is there a badge or badges that are recommended or required before taking this badge? [See our wiki for Before You Start standard language for prerequisite badges](#). Name the badges here. (Links are appreciated.)

- Badge name:
- Badge name:
- Badge name:

Supporting Documents

- [Link to outline]
- [Link to quiz]
- [Link to HOC]

Unit 1: [Title - Begin with an Imperative Verb]

Learning Objectives

After completing this unit, you'll be able to:

- [Directions: Use measurable, action-oriented [learning objectives](#) specific to this unit.]
- [Example: Explain effective methods to improve deliverability.]

[Topic Heading]

Your content can start with a heading (try to avoid “Introduction”). *Example:* Why Is Application Security Important? Or: Create Compelling Emails

You don't have to start writing from scratch. Use [Standard Language](#) to explain how to do many standard tasks, such as [Get Hands-On with a Playground, DE, or Other Type of Org](#) and [Find Your Trailhead Playground Username and Password](#)).

About Tables

Below is a sample table. (It's basic.)

[Heading]	[Heading]	[Heading]
[Content]	[Content]	[Content]

About Notes

To add a note, a table layout is required.

- For a note including the note icon, the **Note** column must read icon=true
- For a note without an icon, the **Note** column must read icon=false
- Format the note in the **Content** column however you like. It may include an H4, or H3 subhead, for example.

Note	Content
icon=true	Note Title (optional) Note details

About Images and Alt Text

It's ok to have a small image inline with your text, but larger images need to be on their own line (in their own paragraph). Text cannot wrap around images in Trailhead. Also, don't apply any cropping or other image enhancements within Google docs. Those changes interfere with the conversion process.

If you have an inline image, put the alt text in brackets after the image. For example, to access Setup, click  [alt text = Setup].

In order to meet accessibility standards, put the [alt text for each image](#) in brackets below the image itself. You will move it to the proper place when you convert the content.

[Alt text: Process automation robot pointing to symbols of what it can automate: list, briefcase, customer service, email.]

Your unit should end with a short (1–2 sentence) wrap up of this unit and lead in to the next.

Resources

- [*Directions:* Every unit typically has at least 1 resource, but if you don't have a resource, it's OK to omit the Resources section for that unit. Start with a type indicator in italics, followed by the title of the resource. See example resources [here](#) and below.]
- [[Trailhead: Personalized Email Marketing](#)] [*Note:* extend the hyperlink across the entire line]
- [*Blog:* Testing Best Practices for Sending Personalized Email at Scale]
- [*Salesforce:* The State of Sales Report (signup required)] [*Note:* if a learner has to fill out a form to access a resource, put “(signup required)” after the link. You should only link to gated content if the audience for your badge is prospects, not existing customers.]

Quiz *

** Note: If this unit has a hands-on challenge, delete this quiz section and fill in the following hands-on challenge section.*

Questions and answers should follow these guidelines:

- 2 questions per unit.
- Correct answers are underlined.

- Multiple choice questions have exactly 4 answers: A, B, C, D
 - No combined choices, such as A and C
- Do not use negative questions (e.g., “All of the following apply EXCEPT,” “Which answer is INCORRECT”)
- Do not use “all of the above” or “none of the above” answers.
- Quiz [Style Guidelines](#)

Learning Objective	Question	Answers (correct answer <u>underlined</u>)
Learning objective from this unit.	Question 1	A. Placeholder B. Placeholder C. Placeholder D. <u>Correct Answer</u>
Another learning objective from this unit.	Question 2	A. Placeholder B. <u>Correct Answer</u> C. Placeholder D. Placeholder

HIDDEN

Note: If this unit has a quiz, delete this hands-on challenge section and its HIDDEN/UNHIDDEN tags.

Hands-On Check or Challenge

Instructions

Hands-on challenges test for a specific outcome, so write your challenge clearly so the learner knows what is expected. See our step-by-step [Guide to creating Trailhead hands-on challenges](#) and [Hands-On Challenges style guidelines](#).

 Click links below for more information, including examples.

[Solution org](#) On the Current Steps tab in your badge version record, under Add Hands-On Environments, add a solution org and record the username and password for the Trailhead Playground or special org where you completed the HOC steps. (The HOC developer uses the solution org to verify that the check code tests the right things.)

☐ Did you create a hands-on environment with the username and password for your solution org in the badge version record?

Hands-On Check:

If all of the work to be checked is in the unit content, skip the following 4 data items and fill in the Requirements and Error Messages in the table that follows.

Unit number and name

1	
---	--

[Title](#) One-sentence summary of what the Trailblazer will do (start with an imperative verb; use title capitalization and no ending punctuation)

Title

[Description](#) Slightly more specific than the short title (1-3 complete sentences describing the big picture of what the user will do)

It's time for you to check your work. Please make sure you have followed all the steps above and click Check Challenge to move on to the next unit.

[Peworkk](#) Anything that the user must do before attempting the challenge ([examples](#))

<u>Hands-On Challenge Requirement</u> <i>Enter one requirement per row with details in sub-bullets.</i> Example: Create a custom field: - Type: Text - Label: Size	<u>Draft Error Message(s)</u> <i>Enter one or more error messages for each requirement.</i> Example: - We can't find the 'Size' field. - In the Size field, we can't find Type set to 'Text'.
Hands-On Check Validation <i>Describe what the HOC developer should check to verify that the learner completed each step in the unit correctly.</i>	
1	
2	
3	
4	
5	
6	
7	
8	

If you have more than 8 requirements, add rows to the table. (Right-click in row 8 and select **Insert row below.**)

Technical Specification Completed by the HOC developer

	Check Name & Details	Final Error Message(s)
1		
2		
3		
4		
5		
6		
7		
8		

To add rows to the table, right-click in the last row and select **Insert row below**.

UNHIDDEN

Unit 2: Title

Learning Objectives

After completing this unit, you'll be able to:

- Learning objective goes here.

Topic Heading (H2)

Body content goes here.

Subtopic Heading (H3)

Body content goes here.

Note: In your last unit, include a short (1-2) sentence wrap-up of the entire badge.
